

# The Bytes of Las Vegas

---

**November, 2010**

**New Notice to Members:**

## INDEX

Important Message	1	<b>The Executive Board has decided to reduce the frequency of General Meetings from monthly to quarterly because of the difficulty in getting presenters, and because of low attendance. Meetings are scheduled for December 1st, 2010, March 2nd, 2011, June 1st, 2011, September 7th, 2011, and December 7th, 2011. The frequency of board meetings is also reduced, so they occur in the month just prior to the general meeting.</b>

### NEXT GENERAL MEETING

**Date: Wednesday, December 1, 2010**

**Time: 5:00-6:45 PM (NOTE NEW TIME)**

**Place: West Charleston Library 6301 W Charleston**

**Please contact <http://www.lvpcug.org> for latest information.**

**Announcements**

The Special Interest Groups (SIG) will be meeting at their regular times. Be sure to check the calendar on the web site. We are looking for a new place for our General meetings and SIG's. If you have any suggestions, please email us at [info@lvpcug.org](mailto:info@lvpcug.org)

Check the web site at <http://www.lvpcug.org> for the calendar dates and times.

Would you like to share a computer talent you have or would be interested in learning about a certain topic. We would appreciate your ideas!

**RECYCLING BRINGS REWARDS** The LVPCUG is receiving rebates for recycling ink cartridges, toner cartridges and cell phones. The Recycling Committee urges members to set aside those items and bring them to the general meeting. You might also spread the word to family members and friends to save them for you too. There is not cost to the club, only your time in gathering the material and the committee members 'time to package it. If you have any questions, please see Charles Finnilla at the General Meeting at the West Charleston Library.

**Officers and Volunteers      Contact by sending an email to [info@lvpcug.org](mailto:info@lvpcug.org)**

**Board of Directors**

Wendy Jaroslowski	President	Linda DiGiovanni	SIG Coordinator
Harold Rozinski	Vice President	Charles Finnilla	Recycling Chairman
Joyce Shore	Treasurer	Leland Beel	Bytes of Las Vegas Editor & Little Bytes Editor
Robert Lynch	Secretary		
Judy Ruf	Executive Director		
Larry Burgher	Technical Director & Webmaster		

**Membership Questions** If you have any questions about your membership.

Please send email: [membership@lvpcug.org](mailto:membership@lvpcug.org)

Web site: <http://www.lvpcug.org>

**Membership**

**\$30 per year. Dues are collected Annually from your membership date. If you would like to join, a membership form is located at the end of the newsletter. Please complete and forward to our mailing address. Las Vegas PC Users Group, Inc. 1350 E. Flamingo Rd# 188**

**Las Vegas, NV 89119**

**Newsletter**

**The Bytes of Las Vegas is published on a month basis.**

**A PDF version is available to members online at the web site.**

**Information in the newsletter was obtained from sources considered to be reliable. Accuracy and completeness are not guaranteed.**

Abraham Lincoln once said, "The dogmas of the quite past are inadequate to the stormy present. The occasion is piled high with difficulty, and we must rise with the occasion."

**NEXT GENERAL MEETING : WEDNESDAY Dec 1st**

**TIME: 5:00 - 6:45 PM**

**PLACE: WEST CHARLESTON LIBRARY**

**6301 W CHARLESTON BLVD (East of Torrey Pines)**

**When Your Computer Has  
You Really Frustrated.  
This is a new Key not  
found on your Keybd.**

We are looking for a space to conduct an informational demo about LVPCUG. If you know of any place that is available to conduct a demo about the Club Please contact Judy Ruf or send email to: [info@lvpcug.org](mailto:info@lvpcug.org) Needed are a table space some chairs and an electrical outlet to plug in a laptop computer.

For those members who use [Cartridge World](#) for their printer consumables, please note that their store formerly in the Home Depot shopping center at Rainbow and Charleston has moved to [3655 S Rainbow](#) Suite 104 in the Walmart shopping near Spring Mountain. Thanks to Karl Rehak for discovering this. Their other store is still at [9550 S Eastern Ave](#), Suite 190.

Attend a meeting and you have a chance to win a door prize from the drawing at the end of the meeting, Door Prize winners from the November 3 meeting were Marilyn Mills won a software package called Adobe PhotoShop Album, Rogert Ward won a software package called OmniPage and Raymond Wagner won a book on Digital Photography.

**THIS SPACE AND MORE IS RESERVED FOR  
A NOTE, HINT, COMMENT OR OTHER WISE  
FROM THE MEMBERSHIP OF THE  
LAS VEGAS PC USER GROUP  
THANKS THE EDITOR**

**Membership Corner**

**Member dues help the club pay bills such as liability insurance, Clear Internet service, web site fees, APCUG membership, equipment, meeting room rent, and raffle prizes. It is important that members be always on the lookout for a perspective new member.**

**Welcome new members James and Joyce Wainscott, who have been attending our Novice SIG. We hope to meet you James and Joyce at our next General Meeting on December 1st. Members if you use online banking you can send your renewal fast and easy by letting the bank do the work and pay for the postage. Our club information is Las Vegas PC Users Group, 1350 E. Flamingo Rd. #188, Las Vegas, NV 89119.**

**New Notice to Members:**

**The Executive Board has decided to reduce the frequency of General Meetings from monthly to quarterly because of the difficulty in getting presenters, and because of low attendance. Meetings are scheduled for December 1st, 2010, March 2nd, 2011, June 1st, 2011, September 7th, 2011, and December 7th, 2011. The frequency of board meetings is also reduced, so they occur in the month just prior to the general meeting.**

**The number of The Bytes of Las Vegas posted to the web site will decrease in number, more information at a latter date.**

**Three non-board member volunteers are needed for the election committee. Duties are easy. Contact a board member for details.**

**The Best Antivirus Software for 2011**

**<http://www.pcmag.com/article2/0,2817,2372364,00.asp>**

**Thanks Charles F.**

If you are a member of LVPCUG that means you are a member of APCUG and you have a great opportunity to use the resources that they provide. Such as the calendar that members may log in and view a meeting of a different club or SIG and see what they are doing. Please go to [www.apcug.org](http://www.apcug.org) and create a users account in the APCUG SharePoint Site so that you can enjoy some of the benefits of membership in the LVPCUG and its shared portals.

## Live Meeting Training for Dec 13, and Dec 18

The URL for the Live Meeting Training for Mon, Dec 13 10pm EDT, 9pm CDT, 8pm MDT, 7pm PDT is [here](#). Before you attend you will need to have downloaded the client from [here](#) and checked to be sure it is working [here](#)

The URL for the Live Meeting Training for Sat, Dec 18 5pm EDT, 4pm CDT, 3pm MDT, 2pm PDT is [here](#). Before you attend you will need to have downloaded the client from [here](#) and checked to be sure it is working [here](#)

“Here” in the above article is referring to the [www.apcug.net](http://www.apcug.net) web page with the information about the Live Meeting Training information. This will be a direct link to the proper information.

**“People think computers will keep them from making mistakes. They're wrong. With computers you make mistakes faster.”**

**[Adam Osborne](#)**

## Send To

The SEND To menu in Windows 7 offers some hidden options

That make managing files more convenient. Just Hold down the SHIFT key while right clicking on an item and you will see an expended SEND To menu that displays all of your personal account folders, including MY Documents, MY Music, My Pictures, My Videos etc. This is a neat since I have always been A big user of the right click and Send To.

Thanks to Linda Nelson

Here is your funny Picture from AhaJokes.com

## USER GROUP PROGRAM

- **Take A Shortcut In Excel:** If you use Excel frequently, you're probably already familiar with many basic Excel keyboard shortcuts. However, there are some little-known shortcuts that can help you work even more efficiently in selecting ranges and moving around a worksheet. For example, you can quickly select an entire data region (a range of data cells bordered by empty cells) by clicking one of the cells and then holding down CTRL-SHIFT-\* (asterisk). Another way to select a data range is to place your cell pointer in the range and then press CTRL-A; press CTRL-A a second time to select the entire worksheet. You can also press CTRL-Spacebar to select the column where your cell pointer is located. Another helpful keyboard shortcut is to press END followed by an Up, Down, Left, or Right arrow key to efficiently move the cell pointer to the outermost edge of a data range.
- **Skip A Bullet Or Number In Microsoft Word:** There can be times when you're working with a bulleted or numbered list when you want to add a new line without tacking on a number or bullet. Perhaps you want to add a parenthetical note below an entry without making it part of your list. If you hold SHIFT and press ENTER, Word will add a new line to your list without a bullet a number. When you want to resume numbering or bulleting, don't hold the SHIFT key any longer.
- **Save The Page:** If you're using Internet Explorer and you come across a Web page with information you want to preserve, there are two good ways to keep the information without having to use a Web browser to bring it back up. The first and simplest way is to print it; it never hurts to have a hard copy of information you need. Another method is to save the Web page as an .MHT (Multipurpose Internet Mail Extension) file, which is essentially just a snapshot of the page. In this format you can send the page to others or double-click on it to open it directly. To make a .MHT file from a Web page, click File (press the ALT key to reveal the File menu if you don't see it), click Save As, and in the dialog box be sure to select the .MHT file type. Tell the computer where to put the file and click Save.
- **IE 8 Tabs:** Did you just close Internet Explorer 8 when you meant only to close a tab? Oops. Tabbed browsing can be a hazard if the wrong settings are in place. First, don't despair. As soon as you recognize the error, restart IE and, in the Tools menu, click Reopen Last Browser Session. In many cases, this will save your set of open tabs on the last IE window you had open. To keep this from happening again, use the Tools menu to access Internet Options. In the Tabs section on the General tab, click Settings. Checkmark the Warn Me When Closing Multiple Tabs box.

Free Utilities from CPUID Describe System Details  
by Ira Wilsker

## WEBSITES:

<http://www.cpubid.com>

<http://www.cpubid.com/software.html>

As regular readers of this column know, I am a fan of utilities, especially if they are free! Frequently, situations arise where it is necessary to know the details of a computer, including specifics about its software, hardware, drivers, and other components in order to diagnose a problem and make recommendations. There are several fine utilities that can perform these functions, but several that I have been using recently come from the historical city of Dunkerque, France, courtesy of their publisher CPUID Software.

CPUID software is best known for its namesake product, CPUID, which is as it says, a utility to identify the details of the CPU chip installed in a computer. This is often necessary to know if the computer is being benchmarked (performance measured), upgraded, or undergoing major repairs. The latest CPUID software is named CPU-Z, version 1.55. This small utility displays the processor brand and model number, the type of socket it uses (necessary to know for replacement or upgrades), speeds, and other details about the CPU chip, which is the central "brains" of the computer. Sometimes it is desirable or necessary to replace a motherboard, or determine the BIOS on the motherboard. The motherboard is the central platform on which most of the other internal components are either directly attached to, or otherwise connected to, and provides much of the internal communication between the components. While generally very reliable and long lived, sometimes it is necessary to replace a motherboard. The BIOS, an acronym for "Basic Input - Output System" is typically attached to the motherboard, and contains the first code run by a PC when it is initially powered on. The BIOS identifies and initializes the video card, keyboard, mouse, hard drive, CD/DVD drive, and other key components. The BIOS contains software in a non-volatile ROM chip, and is typically firmly attached to the motherboard. Most BIOS chips can be updated and upgraded with software provided either by the BIOS manufacturer, motherboard maker, or computer manufacturer. CPU-Z identifies the brand of BIOS, the version of its software, and the date of the software stored in it; with this information, it is somewhat easy to determine if the BIOS contains the latest software. Keeping the BIOS updated is not a critical task if everything appears to be working OK, but for those of us always trying to tweak our computers and capitalize in the latest offerings, this is good information to have. One warning is appropriate here; if the user is considering updating the BIOS, be absolutely sure to explicitly follow the manufacturer's directions to the letter! In a worst case scenario, failure to do so will result in an expensive paperweight, but in many cases, there is a procedure to "roll back" or restore the BIOS to its earlier status.

When I ask people how much memory they have in their computer, they are often clueless, or erroneously confuse the memory with the storage capacity of their hard drives. Clicking on the "Memory" tab of CPU-Z displays the type of memory, the amount of memory, speed, and other characteristics. The "SPD" tap allows the user to cycle through the memory stick installed in his computer, displaying the capacity of each stick, the type, manufacturer, part number, and other information. This information may be necessary if the user wants to add or replace memory in the computer.

Continued on Page 10

Continued from Page 9

The "Graphics" tab displays information about the display device, including the brand, model number, chipset, speed, and memory. Since the video card makers often release updates, enhancements, and new features, this information could be very useful.

CPUID also publishes several other utilities, and another one that I found useful is PC Wizard 2010. PC Wizard was first published in 1996, and is considered one of the most comprehensive system information utilities available. Since the hardware industry is very dynamic, with new hardware being introduced on a daily basis, PC Wizard is frequently updated, typically monthly. In addition to identifying and displaying the details of the hardware and software on the computer, PC Wizard can also benchmark the performance of the individual computer components, as well as the entire computer. By noting which components and software are the performance laggards, the user can then determine what, if any, practical solutions may improve performance. PC Wizard utilizes a series of icons representing each of the components or software titles installed on the computer, and can determine the hardware, configuration, system files, and resources used by the computer. The benchmark selection can test and display the performance of the entire computer, the CPU (processor chip), memory, video, hard drive, external storage devices (like CD/DVD and USB drives), and other hardware components. In addition to displaying the performance of the hardware itself, a "Compare Results" shows how the user's computer compares to others. The results are also displayed and announced (audio) using the wizard avatar and voice synthesis similar to the "Vox Proxy" PowerPoint accessory. PC Wizard provides the user with a wealth of information.

While CPUID has several utilities available for free download, one of those that I also found very useful is HWMonitor, which is a shortened "Hardware Monitor". This utility is also available in an enhanced commercial version, HWMonitor Pro, which adds additional features and functionality. HWMonitor (the free version) can identify the power supply in the computer, and display the real-time voltages, temperatures, and fans in the power supply. This is important to monitor the health of the power supply, and consider a replacement or upgrade if necessary. Many users are unaware that their computers report the temperatures of various components in the computer, which is important in that heat is one of the big killers of components. Being somewhat colonial, I selected to display the temperatures in Fahrenheit (F) rather than Celsius (C). Usually there are some fans in each computer which are critical in exhausting the heat from the components, and bring in cool outside air. HWMonitor tracks and reports the performance of the fans, which can enable the user to easily and quickly see if a fan is failing; a dead fan can lead to overheating and damage or destruction of the computer's components. This utility can also track and report on the temperatures of the motherboard, CPU chip, video card, and hard drive.

Most of these utilities are available for 32 and 64 bit Windows PCs using recent versions of Windows such as XP, Vista, and Windows 7, although some of the utilities also have builds that are explicitly for Windows 98. The files are relatively small and fast to download, and consume minimal system resources, such that they do not noticeably degrade system performance. These utilities could be a useful asset to anyone who wants to keep up with the performance, condition, and health of his system.

Thanks APCUG

**SIG's MONTHLY CALENDAR**

SIG NAME	MEETING DATE	PLACE	TIME OF MEETING	SIG LEADER
Helping Hands	1st Saturday	#1	10 AM TO 4 PM 395-6676	Linda DiGiovanna
Windows Developers	On hold till a meeting room can be found			
Novice(new users) And Internet	2nd Saturday	#1	1 PM TO 3 PM 452-9440	Chuck Frederick
Software and Product Review	2nd Saturday	#1	3:30 PM TO 5:30 PM 395-6676	Linda DiGiovanna
Digital Imaging	2nd Sunday	#1	12 TO 2 PM 262-3662	Howard Mark
LINUX/Open Source	3rd Saturday	#1	1 PM TO 3 PM	
	Need a SIG Leader for a period of time till Don can come back			
How-To-Workshop	4th Saturday	#2	9:30 TO 2:30 PM	Dennis Kemper

**Places are:**

#1 Wengert Room is located in the back of the NV Energy building just west of Jones on W. Sahara

#2 Paseo Verde Library is located in Henderson at 280 S. Green Valley Parkway.

All meetings Are Subject to Cancellation by the SIG Leader or the Property Owner. The Calendar Page of the LVPCUG web site is keep as current as possible.

If you would like to be a SIG Leader for some of the SIG's that are not meeting at this time, Please Contact Wendy to get the details of the duties of the Leader. You may leave a email at [info@lvpcug.org](mailto:info@lvpcug.org)
