

## SIGS (Special Interest Groups)

When you plan to attend a SIG meeting and have specific questions or problems you would like someone to work on or answer, please email us at [info@lvpcug.org](mailto:info@lvpcug.org). This will help assure that we will try to have someone there with the expertise. The email Subject Line: SIG Help

“But I promise not to go to that forbidden site.”

The meeting formats for the Helping Hands & How-to SIGS are usually one-on-one help as compared to the Novice SIG which is group attendance with questions and answers from the audience during and after the presentations.

Nearest major intersection: Flamingo/Jones

## **How do I remove PUPs, foistware, drive-bys, toolbars and other annoying things I never wanted?**

**By Leo Notenboom**

Ending up with random software on your machine that you never really wanted in the first place is annoying as all heck.

And unfortunately, it's happening more and more. As I write this, I'd say that PUPs (Potentially Unwanted Programs – although there's rarely any "potentially" about it), rogue toolbars, and search engine hijacks are probably the fastest rising issues that I see in my inbox.

I'll talk a little about prevention, but first, let's walk through the steps that I recommend that you take when you suddenly realize that you've been saddled with software you didn't know you'd agreed to and never wanted.

Continue Reading: How do I remove PUPs, foistware, drive-bys, toolbars, and other annoying things I never wanted? Just click on <http://askleo.com/?p=14152>

## **Windows 8 Feature**

**Early Launch Anti Malware (ELAM) ELAM comes built into Windows 8. It is an anti-malware that boots before any other drivers so malware cannot get a hold on the system before it is fully started. This and other security features are explained here:**
